

## Hands and Arms – Networking

Many hands are already at work. There are endless threads and ropes worldwide. We only have to strengthen the network. Especially at the level of parishes and churches there is great potential. Conectarnos wants to make a contribution to this. The explicit intention of the website is

- *to motivate:* that's why you'll find biblical and contemporary **motivations** here
- *to strengthen:* that's why you'll find today's ecclesiastical **arguments**
- *to support:* through **services**
- *to serve as a platform* for those interested and involved: **network**
- *to convey:* via **contact** forms
- *to present:* that's why you'll find a number of existing partnerships on the **world map**
